

THIS BUSINESS IS AN AM-SAFE COMPLIANT COMPANY

2012

This is to certify that

Jester Entertainment

has been endorsed by

The Australian Amusement Leisure and Recreation Association Inc. as a provider of amusement, leisure and recreation services in accordance with the best practice standards that have been established as being most appropriate to ensure that businesses in these industries at all times provide the best possible management, operation and duty of care to their clients, guests and staff.

AALARA has determined through an extensive independent Audit that the Operator meets the necessary requirements to be endorsed as a quality operator in these industries. Amongst other things, the Audit has determined that the Operator complies with the cornerstone elements upon which AM-SAFE is based.

These elements include:

1. Strict compliance at all times with the AALARA Code of Ethics.
2. A demonstrated culture of safety in all operational areas of their business.
3. A commitment to risk identification, hazard management and risk minimisation in their business.
4. A commitment to the conduct of appropriate training and induction procedures for their staff.
5. A commitment to ensure compliance with relevant Occupational Health and Safety requirements in each of the States in which they operate.
6. A commitment to recording all appropriate information related to the safe and efficient operations of their business.
7. A commitment to work towards general best practice in the management of their business.

As an AM-SAFE Credentialed Operator, The Operator is hereby authorised to use the AM-SAFE Credentialed Operator Marks ("The Marks"), in accordance with the provisions for its use as endorsed by AALARA Inc. and for only such period of time as it shall, through the process of independent Audit be considered by AM-SAFE Safety Support Program Auditors on behalf of its commitment to the best practice standards endorsed by AALARA Inc. The Marks are the property of AALARA Inc. and the use of The Marks by The Operator can be withdrawn at any time if subsequent Audit reveals that The Operator is no longer operating at a standard deemed appropriate to the AM-SAFE standards as applied by AALARA Inc. and at the discretion of AALARA Inc.

The Operator agrees that AM-SAFE Credentialed Operator status applies only to it as it was Audited by the AM-SAFE Safety Support Program and that if the business of the Operator shall change in a substantive way, that it shall immediately advise the AM-SAFE Safety Support Program of the fact so that it can independently determine if such change should affect the Operator's AM-SAFE Credentialed Operator status.

Issued this Day: 18th October 2011
